WNTC Manager Clarifies Purpose

As Station Manager of WNTC, Nick Sfikas has clarified the purpose of the campus radio station, which is to go on the air in the very near future, in the following statement:

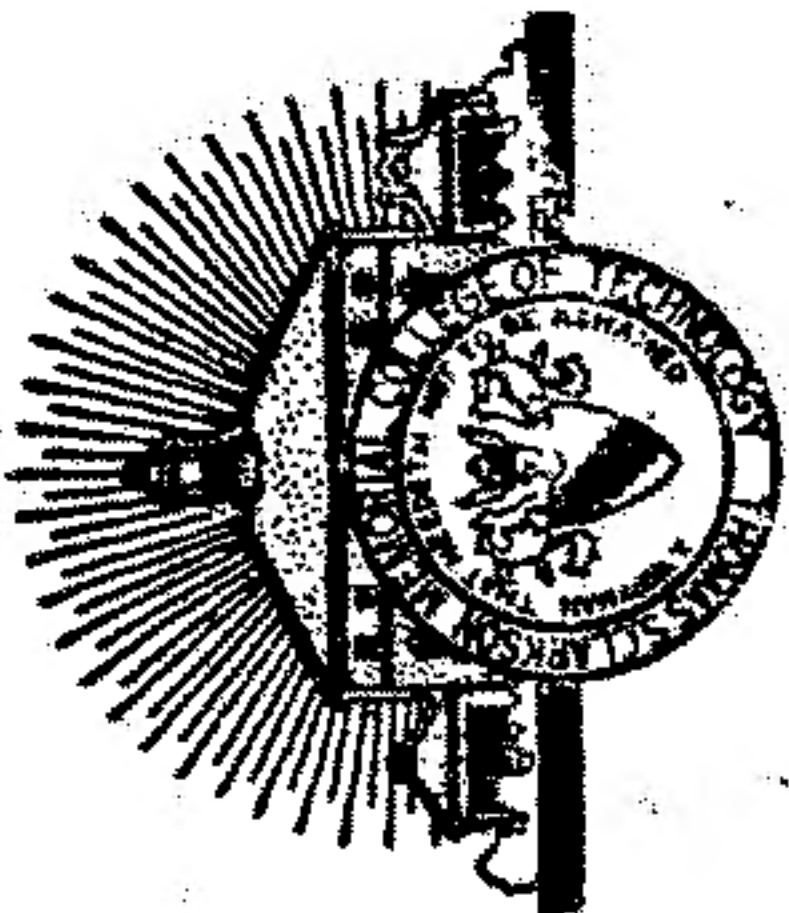

"Article two of the Constitution of Campus Station WNTC states the purpose of WNTC as follows:

"The purpose of this organization shall be to operate a campus station for the entertainment and instruction of students at Potsdam State Teachers College and Clarkson College of Technology, and to encourage in all ways an interest in, and an understanding of radio as an artistic and educational medium."

"Since this venture is without parallel in the history of both schools there are no set precepts readily seized upon to ease this separate entity along the way to the exact fulfillment of its avowed purpose. Coordinating the efforts of the station members of the two participant schools is a difficult task requiring the whole-hearted cooperation of the entire station personnel in addition to the other members of the student body and faculty.

"The station policy shall be of a general nature, embodying the current ideas of the station Executive Board. It shall be altered at such times as the responsible officers and advisory faculty members deem changes necessary, as dictated by the lessons of experience."
